**Von regory James, regory James : Dictionary of Lexicography** before purchasing it in order to gage whether or not it would be worth my time, and all praised Dictionary of Lexicography:

KundenrezensionenHilfreichste Kundenrezensionen0 von 1 Kunden fanden die folgende Rezension hilfreich. This book is great!Von Ein KundeFor you hard-core computer programmers, get this book! Its full of lexicographic code and the order in which it assimilates different functions and variables in abitrary order! Very good and a very great price! Go .com for this great deal!

KurzbeschreibungDictionaries are among the most frequently consulted books, yet we know remarkably little about

them. Who makes them? Where do they come from? What do they offer? How can we evaluate them?The Dictionary of Lexicography provides answers to all these questions and addresses a wide range of issues:\* the traditions of dictionary-making\* the different types of dictionaries and other reference works (such as thesaurus, encyclopedia, atlas and telephone directory)\* the principles and concerns of lexicographers and other reference professionals\* the standards of dictionary criticism and dictionary use.It is both a professional handbook and an easy-to-use reference work.This is the first time that the subject has been covered in such a comprehensive manner in the form of a reference book. All articles are self-contained, cross-referenced and uniformly structured. The whole is an up-to-date and forward-looking survey of lexicography.Pressestimmen..."the tome does contain many useful items."-Canadian Journal of Linguistics ..."the dictionary will be useful to the beginner who needs an easy clarification of terms for his reading."-Ladislav Zgusta, University of Illinois "Recommended for academic, special and large public libraries."- "Choice, Jan 1999 "Is a carefully conceived, attractively presented, comprehensive view of the field of dictionary construction and scholarship. It would be an appropriate addition to academic or special libraries that serve students, faculty, or researchers in the liberal and fine arts. A good choice for public libraries responding to the needs of lifelong scholars and historians.."-"American Reference Books Annual, 2000 KurzbeschreibungDictionaries are among the most frequently consulted books, yet we know remarkably little about them. Who makes them? Where do they come from? What do they offer? How can we evaluate them?The Dictionary of Lexicography provides answers to all these questions and addresses a wide range of issues:\* the traditions of dictionary-making\* the different types of dictionaries and other reference works (such as thesaurus, encyclopedia, atlas and telephone directory)\* the principles and concerns of lexicographers and other reference professionals\* the standards of dictionary criticism and dictionary use.It is both a professional handbook and an easy-to-use reference work.This is the first time that the subject has been covered in such a comprehensive manner in the form of a reference book.
