An interesting read, but hard to follow..Von toucan@iinet.net.auAs a student of external Kung Fu, this book was an interesting look at the internal styles and the background behind them. But as far as the use of the pressure points go, this book made it look fairly impractical and useless. The point location diagrams are impossible to follow (sketches), which ruins what little effect the appendixes show. All in all, an interesting read, but nothing further..3 von 4 Kunden fanden die folgende Rezension hilfreich. sehr bedauerliche VerffentlichungVon El viejo loboMr. Montaigue hat leider

aber offensichtlich von der Materie wenig Ahnung. Dieses Werk ist eines der berflssigen Bcher dieser Welt. Gerade noch fr Akupunkteure interessant, die ihre Sicht der Dinge etwas erweitern mchten oder fr Trumer, die meinen, ein Fingerpieks knne einen aggressiven Angreifer stoppen. Allen anderen, die sich in irgendeiner Form mit dem Thema Kampf befassen, sei vom Kauf abgeraten. 1 von 3 Kunden fanden die folgende Rezension hilfreich. An outstanding and detailed reference of Dim Mak Von Ein Kunde The science of Dim Mak has been heavily shrouded in mystery and superstition since it's inception in Feudal China. Mr. Montaigne's book is an excellent and detailed study of this complex Martial Arts system of internal fighting.
