Von goodwin04@aol.com This is an excellent book that will teach men why they are here and why they are married to their wife. It shares GREAT insight for men on HOW to

love their wives and why their wife does the things they do and what she is expecting of her naturally as God intended. No other book that I have encountered teaches men the ins and outs of why they are where they are as this book does. It is a must read for all men looking to be what he is meant to be here on earth. It should be taught in school. The synopsis needs to be changed. Women benefit in reading the book to see where her husband maybe coming from, but MEN need to read the book to have a successful marriage and become the glory of God as God intended. It will do no man any good for his wife to read it untill he has read it himself.0 von 0 Kunden fanden die folgende Rezension hilfreich. Awesome! Separates the men from the boys.Von Ein Kunde" There is a way that seems right unto a man; but in the end ...." Most of us guys think we know what a woman needs from us and how we should treat the most important woman in our lives. Often we get left wondering what happened when this woman ends up gone or, at best, leaves us alone in our own house. Many such marriage let downs could be eliminated simply through discovering and using the practicalities of marriage which abound within this book. Every man could use a dose of this stuff on a regular basis. A great book for real men.0 von 0 Kunden fanden die folgende Rezension hilfreich. A MUST have for every man!!!!Von tube2727@aol.com This book will let every man out there realize what is wrong with their relationship, or how to make it stronger. I only wish I had read this book 6 months ago, I could have saved my marriage. This book is hard for any man to swallow, but if you can get through it you WILL see how to really love your wife and receive love in return.
