Von Lee J. Ames, Ric Estrada : Draw 50 Aliens: The Step-by-Step Way to Draw UFOs, Galaxy Ghouls, Milky Way Marauders, and Other Extraterrestrial Creatures before purchasing it in order to gage whether or not it would be worth my time, and all praised Draw 50 Aliens: The Step-by-Step Way to Draw UFOs, Galaxy Ghouls, Milky Way Marauders, and Other Extraterrestrial Creatures:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A Wonderful Book for ChildrenVon Ein KundeRic Estrada, who illustrated this book, has come up with some wonderfully imaginative characters that show the younger reader the basics of drawing a cartoon character. Mr.

Estrada, a forty year veteran of comic books and animation, shows how the building blocks of solid design are formed from the simplest of shapes. Not only is this a great learning tool, but the names and commentary inside are quite entertaining as well. I highly recommend this book.0 von 0 Kunden fanden die folgende Rezension hilfreich. Draw 50 Aliens plus Von Ein Kunde I bought this book for a younger friend who likes to draw strange creatures. I used to teach art to children and used a number of the Lee Ames books in my classes which were always a big hit. I noticed that not all children can follow the visual step-by-step instructions but those that did usually had a great time and good results. This book seems to be of the same quality as the other Lee Ames books I've purchased.

Kurzbeschreibung Alien fever is running high: the Alien movies and reissue of the Star Wars trilogy have made outer space fascinating to a whole new generation of children. And who better to help budding artists master their drawings of the friendly folk from the final frontier than Lee Ames--creator of the phenomenally successful Draw 50 series? An ideal tool for young artists or the parent or teacher seeking to help a child master their artistic skills, Draw 50 Aliens includes creatures from every walk of the galaxy: Ames gives instructions for drawing UFOs, Nebula Nomads, Milky Way Marauders, and every other type of extraterrestrial. And, in the tradition of the Draw 50 series, all of these characters are humorous, lovable, and very accessible for children. With over two million copies in print, the Draw 50 series has successfully shown children how to create everything from a robin to a spaceship, Tyrannosaurus rex to John the Baptist. But with Draw 50 Aliens, Ames has--perhaps as never before--hit upon a deeply appealing subject, one that taps into children's sense of wonder and will keep them endlessly entertained and forever sketching away.
