About the Draw Real series..Von Ein KundeThe Draw Real series by Lee Hammond are, by far, the best drawing books I've EVER owned. My art teacher even agrees and she has over 20 years of experience! When I first got the Draw Real books, I was an "ok" artist. My shapes were distorted a bit and the shading wasn't the cream of the crop. But after getting and studying the books for a while I did some of the best work I've ever done! I highly recomend the books for all artists, even the rookies. NOTICE: I don't recomend replacing hands-on help with the books. You'll get the best results with both a good art teacher and the Draw Real books. My teacher also contributed to my drawing success.0 von 0 Kunden fanden die folgende Rezension hilfreich. I am finally able to draw!Von Robert BurrAfter many attempts using other methods or instructions my drawing were never anything I was satisfied with nor would show someone

else. Ms. Hammond's technique is not only effective, but also easily learned. People who have seen my work respond, " I did not know you had that talent". Almost makes me want to keep the method a secret, but it is more fun to share!

My Favorite Drawing Book Von ungerers@usa.net I recently purchased this book and at first thought it was going to be one of those technical - slow process books. I'm only 15 and I know it's got to be one of the most easy-to-understand books I've ever read!!!

Kurzbeschreibung Having trouble drawing a nose that looks like a nose? In this step-by-step guide, Lee Hammond will teach you how to draw realistic-looking portraits of your favorite people more easily than you ever thought possible. Really! The secret is in the blending: With pencil and paper, Lee shows you how to create gradual, smooth shadings of light and dark to replicate the subtle contours of skin and how to use these simple shading techniques to make any shape look three-dimensional. After you've got the basics down, you'll see how to draw every part of the face. It's made easy by looking at each feature as simple, interlocking shapes, then adding the right highlights and shadows. In no time, you'll be drawing realistic noses, mouths, eyes, ears and facial expressions. Then you'll see how to put all those features together to create an expressive portrait that actually looks like your subject! Step-by-step demonstrations guide you all the way.
