Guide to life in the Golden AgeVon A readerThe author is a professional journalist whose seventeen-year-old son died in a vehicle accident. In her grief she contacted a personal friend who was a medium and was told she would receive an unmistakable sign when he was ready to send her a message, and when that time came, she would be led to a

trustworthy medium. Each medium she contacted said her son would contact her directly and gave verifiable substantiation. And he finally did contact her fourteen years later. She was told she was to write several books about the coming planetary changes based on information supplied by her son. This is her sixth Matthew book. It is a mix of new material and a reediting of and combining of many past messages into a more palatable single book. It is a useful source of what to do beforehand and to expect once the Golden Age begins. Each message is several pages and is meatier than similar kinds of messages from other sources. According to Suzy Ward in her monthly messages, preparation for the Golden Age has been ongoing for quite some time and will peak near the end of the Mayan calendar end date of Dec. 21, 2012 or thereabouts. This is a gradual process which involves a total overhaul of our societal structure. All monthly messages are available free at matthewbooks. The first two thirds of the book is spent giving a history of the Earth and introducing a pantheon of off planet personalities. This is followed by the reedited passages and then by ten pages of new material in the form of questions and answers. The single largest passage was based on her sons memorable Essay on 2012 given on December 31, 2007. A list of other important related messages by subject is given at the end of the June 3, 2012 reading. According to the book None of the dire situations that some analysts and some channeled messages purport to be likely, or even unavoidable, will come to pass. There will be no repeat of 9/11, no third world war, no nuclear war in space, no worldwide riots because of food shortages, no inundation of coastlines until the seas reach the mountains, no pandemics or lack of drinking water that will imperil or eradicate billions of lives, no invasion by a dark civilization, no planetary destruction that will necessitate mass evacuations or underground living. New Earth: "Very little of the wondrous world on your horizon will be rooted in your systems to date that is precisely WHY you are creating your new world." Golden Age: "Imagine feeling such abundant happiness and love that you think your heart will burst. Imagine living so vibrantly that you glow like the sun itself. Imagine embracing souls in spirit who are most dear to you. Imagine traveling among the stars to other worlds, meeting people who seem magical, communicating with the speed of a thought, and performing feats that now you would call miracles. Dimensions: "Ascension is the process of Earth leaving third density and traveling through fourth on into fifth. Quantum Moment: "We dont know how long it will take the planet to transit fourth density and enter fifth it depends on Earths residents collective consciousness. New Body: "...bodies will incrementally re-grow any missing organs, limbs, or teeth until every aspect of health is perfected. Bodies of aged persons gradually will become youthful lifespans in fifth density can be tenfold or more than yours are now. Who Will Go: "BE KIND!...start thinking of yourselves as inseparable, eternal parts of God and thereby interconnected with all other life in this universe. Status Quo: People whose rigid religious beliefs are the very foundation of their lives may not be able to accept the truth likewise Scientists with closed minds also may want to leave when the universal laws are revealed...they may opt to transition to a spirit world instead of staying with the earth during its dimensional ascension. Individuals who dont desire to stop their use of drugs or any addictive behavior and do whatever is necessary to support their habits, will not have enough light to physically survive in fourth densitys high vibrations. They will go to a spirit world commensurate with their lifetime energy, Love and Fear: "Fear is the opposite of love fear is detrimental to your understanding and to your thinking positive, enlightening thoughts. Media: Do "not be drawn into third densitys drama that is playing itself out. When: The parameters of the celestial window between third and fourth densities have a degree of flexibility, so the planets entry into fourth doesnt have to occur December 21, 2012, or any other specific date in the same narrow time frame, but that doesnt lessen one iota the validity of the Mayans calculation. Money: Honest, knowledgeable people will manage the new monetary system, which will be based on precious metals, and they will allocate fairly and equitably all of your worlds resources. Prayer: The desire in any prayer goes out to the universe. The energy of that desire attaches itself to matching energy and brings that back to the person who prayed...What many of you consider prayer is not the full extent of the universal law....It makes no difference which name is called....All prayers reach the Source of this universe.

Kurzbeschreibung This may be the most enlightening book you'll ever read... if you want to know how Earth's ascension affects you, how life will differ in the Golden Age, and how other civilizations are helping us. In God's own words: "You may not be astounded to know that before you were born, you chose to be exactly the person you are as well as your role in helping to bring a glorious new world to Earth's doorstep." Through Suzanne Ward, well known throughout the world as the mother of Matthew whose messages come through her, along with many other voices from beyond this world God has directed Matthew to cover Earth's history and ascension, the range of extraterrestrial assistance, and life in the Golden Age. Representatives of other worlds describe themselves and explain how they are helping us. As God mentioned to Suzanne, He wants us to know about our universal family. His other reason for wanting this book is so all of my beloved children on Earth can feel excited and joyous about everything that lies ahead!
