Der Verlag ber das Buch For elementary, middle, and high schools . . . EDUCATIONAL TECHNOLOGY: BEST PRACTICES FROM AMERICA'S SCHOOLS Second Edition contains profiles of exemplary programs and projects at elementary, middle, and high schools across the country. It describes how these schools have used computer-based education, the Internet, multimedia, interactive video, and other instructional technologies to improve student learning. For the Second Edition, author Dr. William Bozeman conducted a new nationwide search for noteworthy and successful applications of educational technology. The results of his search are summarized in this book. For principals, technology coordinators, administrators, and all others involved in educational technology, this book contains brief but information-packed profiles of 41 outstanding programs and practices. This book shows how educational technology has resulted in achievements relating to: At-Risk Students Block Schedules Cooperative Learning Critical Thinking Distance Learning Exceptional Education Individualized Education Interdisciplinary Curriculum Language Arts Multicultural Education Music National Standards Parent Involvement Portfolio Assessments Rural Education Science Senior Citizens Social Studies Staff Development Tech Prep. . . and much more
