Von Paul Kilduff : Ruinair before purchasing it in order to gage whether or not it would be worth my time, and all praised Ruinair:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Lustig geschrieben, nicht immer ganz ernst, gute UnterhaltungVon Phil FliegerDas Buch hlt, was es verspricht: Der Autor taucht ab in die Welt der Billigflieger und erzht von seinen Erlebnissen. Neben der Hauptairline Ryanair, die am intensivsten auf all ihre Praktiken untersucht wird, werden auch etliche weitere Billigflieger auf lustige, teilweise ironisch-sarkastische Weise beleuchtet. Geschickt gespickt mit passenden Zitaten vom jeweiligen CEO. Nebenbei hat

der Autor für jede Airline und jeden Namen seine ganz persönliche Abwandlung: Ob Ruinair, Herr Berlin oder EzJet, in kurzen Episoden wird von jeweils einem Trip mit einem Billigflieger zu den unterschiedlichsten Zielen erzählt.

Kurzbeschreibung How to be treated like shite in 15 different countries and still quite like it! Stung by a ten-hour delay and a not-so-bargain fare to Spain on his native 'low fares' airline, Dubliner Paul Kilduff plots revenge. Can Paul beat 'Ruinair' at their low cost game and fly to all fifteen countries in Western Europe for less than the 300 it cost him to be stranded in an airport lounge surrounded by drunks, bimbos and incompetents (and that was just the flight crew!)? Suffering every low-fares airline indignity: a miniscule carry-on baggage allowance, 6.00 am departures, Six Nations-style boarding scrums, epic bus excursions and terminal anxiety, Paul is doing something he's never done before: travelling to places he never knew he wanted to go, which are probably not quite where he thinks they are, with no idea what he's going to do when he gets there. In a way never before possible Ruinair and its competitors have opened up Europe's treasures to the average traveller, and, as discovered by Paul, a few complete dumps too. In this hilarious, no-holds-barred account of a holiday of a lifetime-cum-human endurance test, Paul takes us on an adventure that is not for the faint-hearted. From Luxembourg to Liechtenstein to Spain and back again, pack your bags (maximum 10kg, please) and join Paul Kilduff on this is a whirlwind no-frills tour of Europe and the low-cost airlines that help make that colourful continent a smaller, and somewhat angrier, place. Pressestimmen Kilduff has a neat sense of irony when balancing his own and other people's discomfort, with the motivation that brings us all back to Ryanair: it's cheap. He can be a droll and perceptive writer. His dispatches from the hot-spots of Liechtenstein or San Marino are witty and engaging. A quirky study of a modern phenomenon, Ruinair is the ultimate airport book. You may even see it sold on Ryanair flights, if Michael O'Leary can find some way to make a buck from it - Sunday Business Post. This is a travelogue in the best sense of the word - it captures the tone and the landscape of the changed Europe where we can now fly for a tenner, so that a reader in 100 years' time could quickly visualise the importance of what has happened. Kilduff's strength is the variety of destinations he visits and his contextualisation of the Ryanair experience. Kilduff's style is eminently suitable for an airline that is constantly mocking itself and taking the urine out of the airline industry it has enlivened - Irish Independent Ruinair is an entertaining travel book based around the destinations you can visit on this much-used but maligned airline. This is a razor sharp travel guide. VERY funny, sure, but be warned, if the book fails to please, there is no refund - Sunday Tribune
