KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Standardwerk vom MeisterVon Klaus VortmannMan muss ber Craig Boddington nicht viel sagen: ex-Marine, Jagdjournalist, zig Jagdbcher in verschiedenen Neuauflagen, ber 30 Jahre Jagd in Afrika und den USA ... Wer sich fr

eine Jagdreise nach Afrika interessiert, braucht eine geeignete Waffe und ein geeignetes Kaliber und eine geeignete Patrone ... und zwar geeignet für die jeweilige Wildart. Eine Universallösung gibt es kaum, auch wenn manche Lesungen, die Boddington vorschlägt in diese Richtung gehen. Um eines wird man in jedem Fall nicht herumkommen, wenn man alles richtig machen will: sich richtig zu informieren. Dazu liefert Boddingtons aktuelles Buch (Vorsicht; es gibt eine inzwischen leicht veraltete erste Ausgabe) eine nahezu enzyklopedische Übersicht!

Kurzbeschreibung Gone are the days of simple-solid and softpoint-bullets for a mere dozen-and-a-half African calibers. The sheer number of products on the market today staggers the mind and bewilders even experienced hunters. Boddington presents his information in clearly explained, bite-size pieces that we can digest, and in the process he gives us a solid understanding of what works and what doesn't. Many writers proclaim their knowledge of African hunting, but few have the true in-depth experience that comes from thousands of days afield. Boddington's Safari Rifles II is a rare gem of a book, offering solid information based on vast experience and insight gathered over the last thirty years of hunting on the Dark Continent.
