Von Chris Howard : Saltwater Witch (Comic # 1) (Saltwater Witch Comic) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Saltwater Witch (Comic # 1) (Saltwater Witch Comic) (English Edition):

KurzbeschreibungThe comic edition of the first book in Chris Howard's exciting Seaborn Trilogy.An army of the drowned dead, family betrayal, an exiled witch who doesn't know she has power--or that enemies are lurking all

around her, spying on her. Follow Cassandra as she discovers who and what she is in this moving underwater fantasy. Cassandra comes from the sea, but she has no memory of saltwater, seagulls, or an incoming tide. She's never seen an ocean, never heard the thunder of surf. She's an exile, betrayed by her own family, sent as far from the sea as they could arrange--somewhere in the middle of Nebraska.
