INTERNET PANHANDLING AS A WAY TO DEBT REDUCTION...Von lawyeraaU was surprised to find that I enjoyed this funny, quirky book, in which the author recounts how, as a woman in her late twenties with a low six figure job as a television show producer, she still managed to accumulate twenty thousand dollars worth of credit card

debt in about a year's time. She did so by charging expensive personal services and designer merchandise. While I thought the author a shallow and silly sort of woman, I have to give her credit for moxie. When the author found herself suddenly unemployed and saddled with this large debt load, she did not decide to go the bankruptcy route. Instead, she showed ingenuity by creating an interactive website whereby people could send her money to help her get out of debt, if they wished. Her website kept the public posted as to her progress in terms of her debt reduction. Her debt was reduced through donations made by the general public, her sale of her personal belongings on eBay, and whatever money she was able to pay from whatever job she could land. The author details how, when she moved from her native Chicago to New York City, she got in debt. I found her story to be funny, although the writing is prosaic and somewhat juvenile, at times. It is also hard to believe that these were the antics of a woman in her late twenties. She showed little judgment and virtually no introspection. Still, the author managed to get rid of her debt in a matter of months and land a book and movie deal to boot. So, she is not a total ditz. If one takes this book at face value, one will enjoy this easy, breezy little read. As for those who stand in judgment of the author and her frivolous accumulation of debt, keep in mind that she paid every last penny of her debt. She just chose a somewhat novel and imaginative way in which to do so. I suspect that those who are most irked by her success and the way in which she got rid of her debt, are those who only wish that they had thought of it first.

I read "Save Karyn" within 2 days and could hardly ever stop. People would give me funny looks on the train because I laughed so much! Karyn describes her move to NY from her small hometown as one of the greatest adventures of her life. She is excited about everything: her new job, her apartment in Manhattan, the stores, the restaurants, ... So she starts checking everything out and just cannot stop herself from buying whatever comes her way. Some way through the book you might start thinking that it is impossible someone should not have a normal perception of how much is too much and think that she is just ignorant but she makes up for it by being funny and nice which will help her in the end to get out of the mess she brought herself into ... Very entertaining!

Als ich diese Buch gelesen habe, habe ich Trnen gelacht! Nicht nur konnte ich mich teilweise mit der Hauptfigur identifizieren, da New York meine Lieblingsstadt ist und ich sie ganz gut kenne und wei, dass man da nur all zu leicht zum Shoppen verfhrt wird. Ob die Idee in Deutschland funktioniert, die Karyn dazu gebracht hat dieses Buch zu schreiben, bezweifle ich zwar, aber es ist sehr unterhaltsam und kurzweilig und man sollte es in Englisch lesen dann wird man seine wahre Freude haben!
