Von Jesamine James : Scrag - Up The Hill Backwards: A defiant true story of child abuse (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Scrag - Up The Hill Backwards: A defiant true story of child abuse (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. when courage and talent combine... Von Angelika Rust...a book like this is born.Thanks, Jes, for having the guts to go get up and face the memories long enough to be able to put them into such a well-written flow of words. Big kudos to you.

KurzbeschreibungBased on a true story of a girl coping with an abusive childhood in the 1970s in central England.His voice echoes through her nightmares, Even when I die, I'll come back to haunt you.It's time for Jes to bury Marie's ghosts forever.Six-year-old Marie finds her world has changed and become one of confusion, deceit and abuse.No longer called by her birth name, she is unaffectionately referred to as Scrag.Her will to survive manifests quite bizarre tactics, as she deviates off course into a childhood of insanity, paranoia, glue-sniffing, self-harming and messages from David Bowie ringing through her ears.Her mind contrives strategies to cope with the continued onslaught that it seems destined to endure.Adulthood is her escape route if she can survive the wait, but can demons be truly locked away in the past forever?This is the story of one child's mind at the mercy of a real life monster.Author note: This is my story of how a paedophile entered my life, home and family when I was six years old.I highlight how he attempted to break my mind, soul and spirit for his total control over me. I fought for my sanity, survival and freedom against his evil and constant onslaught of abuse.I was Marie; now I'm Jes.KurzbeschreibungBased on a true story of a girl coping with an abusive childhood in the 1970s in central England.His voice echoes through her nightmares, Even when I die, I'll come back to haunt you.It's time for Jes to bury Marie's ghosts forever.Six-year-old Marie finds her world has changed and become one of confusion, deceit and abuse.No longer called by her birth name, she is unaffectionately referred to as Scrag.Her will to survive manifests quite bizarre tactics, as she deviates off course into a childhood of insanity, paranoia, glue-sniffing, self-harming and messages from David Bowie ringing through her ears.Her mind contrives strategies to cope with the continued onslaught that it seems destined to endure.Adulthood is her escape route if she can survive the wait, but can demons be truly locked away in the past forever?This is the story of one child's mind at the mercy of a real life monster.Author note: This is my story of how a paedophile entered my life, home and family when I was six years old.I highlight how he attempted to break my mind, soul and spirit for his total control over me.
