screenwriting there is, I am officially excited about Carson Reeves' book. His collection of 500 secrets is a treasure box full of golden nuggets and practical wisdom that will make the screenplays of everyone, who writes screenplays much better. Wishing him all the best of success, a selfish part of me also wishes, I was the only person who knew about this book. Only handicap is that Reeves is solely focussing on Hollywood movies and ignores the rest of world cinema. This is no surprise, though, because also his brilliant blog is centered upon US-american and sometimes British cinema. Probably mainly because non-English-speaking screenplays are not really available in English. Still I believe there would have been some knowledge worth spreading in movies, produced outside the sphere of Hollywood storytelling. Good storytelling is so much more than American cinema. Anyway, this is a great book full of useful knowledge. And even for devoted followers of the Scriptshadow blog there is still very much knowledge in here which is definitely worth reading the book. 0 von 0 Kunden fanden die folgende Rezension hilfreich. A fun, well-written books full of smart tips Von Alexander Plamper As a long-time reader of Carsons website scriptshadow.net, I know his writing style and his knowledge of the craft. He knows what he is saying and is trying to give up-and-coming writers all the help they need. I learned a lot from this book and was entertained as well.

Kurzbeschreibung Scriptshadow Secrets is the first book from popular screenwriting blogger, Carson Reeves. The book was written as an answer to the glut of tired A-Z screenwriting books that have flooded the market over the years. Instead of another extensive How-To guide, Scriptshadow Secrets looks at 50 popular movies from the past six decades and offers 10 (give or take) screenwriting tips from each. The idea is to not only teach screenwriters valuable lessons, but show how those lessons have been incorporated into successful films. This way, writers learn by example, instead of having to take the author's word for it. From Aliens to Pirates Of The Caribbean to The Hangover to The Empire Strikes Back, Secrets teaches you screenwriting lessons from the greatest films of all time. Author Carson Reeves began as a screenwriter himself, yet struggled to figure out the elusive formula for writing a successful screenplay. Then, about seven years ago, he started getting his hands on spec sale scripts and reading them. Within weeks, he'd learned more about screenwriting than he had in the past seven years combined. He then turned his attention from writing to helping others write. This was the genesis behind the Scriptshadow website - a way to teach screenwriting through reading professional screenplays. The site blew up but quickly became controversial, due to Reeves breaking down material that Hollywood considered private. As such, the site's become a "love it or hate it" fixture in both Hollywood and the screenwriting community. Still, the site has tens of thousands of aspiring screenwriters who visit daily and make it the most popular screenwriting site on the web. The site's most popular feature, the "What I learned" section at the end of each review, was the main inspiration behind Scriptshadow Secrets, as Reeves saw how positively writers responded to quick context-relevant tips.
