early hours one morning changes everything for his family and even touches the life of an innocent bystander. It is everything a family fears when police detectives arrive at Megan's doorstep to bring the news of her brother's death. They tell Megan and her parents that he was shot in a bar and the shooting is under investigation. Megan can't imagine that something like this could happen to her brother, although when she overhears a comment by the police stating that Danny had been "known to the police," she wonders if she really knew her brother. As the weeks pass there are no leads and the case is pushed aside, although the detective in charge of the case assures Megan's father they are still actively seeking information. This lack of enthusiasm from the authorities causes Megan and her father to do some investigating of their own. It doesn't reveal anything new, but Megan does meet Titch, a young employee at the bar, and she hopes he might have some needed evidence. Author James C. Dekker paints a painful picture of how death can tear apart those left behind. The survivors want to find answers, but they must also face their own grief and find a way to continue. Many often deal with the tragedy in different ways and at a different pace, only compounding the issues all must face. Reviewed by: Sally Kruger, aka "Readingjunky"

Kurzbeschreibung Megan's brother Danny is dead, killed in an apparent robbery in a bar. It seems like a terrible but simple case of mistaken identity, of being in the wrong place at the wrong time. But as the truth comes out, Megan realizes that Danny was "known to police." He was in much deeper than she realized, and the police are not motivated to solve the crime. As Megan watches her family self-destruct, she decides she has to find the truth. But the truth is hard to come by, and there are people who will kill to keep it hidden. Pressestimmen., "the gold standard of what hi-lo titles can be. Highly recommended."., "an excellent series for high school students who need to improve reading skills...age-appropriate themes as well as situations...a Hi/Lo fiction series that does not call attention to it being Hi/Lo." -- Ty Burns "Dekker paints a painful picture of how death can tear apart those left behind." "Scum is full of suspense...[and] would make an excellent addition to intermediate classroom and school library collections." "This is the stuff real life is made of and I highly recommend this to young teens who think dealing and taking drugs is the easy way to money." "The book's willingness to forego hackneyed messages is refreshing...a quick but satisfying drama for those aware that darkness is only a step away in even the most comfortable lives."
