Kurzbeschreibung And out of the throne go forth lightnings, and voices, and thunders; and seven lamps of fire, burning before the throne, which are the seven Spirits of God - Rev. 4:5 John Crowder's long-awaited Seven Spirits Burning is an extensive, Biblical plunge into the nature and operation of the sevenfold Spirit of God. This book unpacks a deep theological and Christocentric understanding of the seven Spirits. John has taught for years on the seven Spirits, but not until now has he released this detailed compilation of his study and experience. This book could possibly be the magnum opus of anything written to date on the Spirit's sevenfold nature. It is a must read for anyone interested in walking in the anointing. This is a pneumatology book (a study of the Holy Spirit), and explores the fullness of the Godhead that dwells within each believer because of their union with Christ.
