Introduction to the Shamanic Path Von Peter Uys This is a very comprehensive introduction to the shamanic experience in chapters discussing inter alia the new inner frontier, the cosmos of the shaman, tools, totems and allies, the journey, power animals, guides, teachers, guardians, healing and the sacred laws. In almost all the fundamentals these teachings correspond with the ancient knowledge, current New Age and New Thought beliefs and with the wisdom of the East. As the author puts it so well: "Shamanism has no leaders or dogmas, and shamanism has no followers, only doers." In other words, it is the responsibility of the individual to find the divine within. The style is accessible and engaging and the text is enhanced by explanatory illustrations. There are exercises, a glossary, bibliography and index. An enlightening read and a valuable reference work.

Kurzbeschreibung In an age when much of the earth's surface has been explored, the spiritual realms within us are still, for many people, uncharted territory. This Inner Space was experienced by shamans and the 'Wise Ones' of all cultures and traditions who could bring to the surface of consciousness knowledge that could then be applied to improve the quality of individual lives. Today, the opportunity exists for us all to experience the reality of transcending distance and time, find new understanding, and discover the inspiration and guidance to meet all of life's challenges. Shamanic Experience, packaged together with its unique shamanic drumming CD, can enable you to:-- awaken and develop your inner senses resources-- access other levels of awareness and retrieve information that is relevant to all areas of your life -- discover that the power of every living thing, including yourself, lies within
