InstructiveVon Kindle-KundeThis book is full of information that I found interesting. The content of the book, however, is mainly not what you might expect it to be from its title. Definitely a lot of research went into it, but neither did the author want to let a piece of it go to waste, nor was he willing to rephrase a catchy title in order to be truer to the work.

KurzbeschreibungThe compelling account of recklessness, tragedy, courage and rescue, a book whose sobering depiction of Nature's danger is tempered by unforgettable portraits of the triumphant human spirit.
