KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. lacking mapsVon Janneke BrouwersThis is a valuable little guide that fits any travel bag, However, the book lacks maps. There is only one tiny map of Palermo in this book. I thought this would not be an issue for me - maps are usually easily accessible at tourist offices and hostels - but in Sicily this is simply not the case. There are many white pages in this book and there was ample opportunity to include more maps without adding more pages and thus adding to the purchase price,Futhermore, though this book is far from expensive, the Footprint guide to Northern Spain is 10x times as thick, has maps of every substantial town and even pictures and colour for exactly the same amount of money.So, if you don't assume that every Footprint guide is of the same quality, this is a nice little book. Some of the restaurant tips are a little off, but only Footprint would warn you not to go on the tour of the Norman Palace because it is dull as hell.
