Von Jorgen Johansson : Smarter Backpacking - The Appendix: The illustrated companion to Smarter Backpacking on lightweight trekking and ultralight hiking techniques (English Edition)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Smarter Backpacking - The Appendix: The illustrated companion to Smarter Backpacking on lightweight trekking and ultralight hiking techniques (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.
Hilfreiche bilddarstellungVon Kindle-KundeSchn beschriebene Fotos und des verwendeten Equipment. Allerdings sollte man zuerst das eigentliche Buch lesen, da dieser appendix sich darauf bezieht.

KurzbeschreibungSmarter Backpacking - The Appendix - is a richly illustrated (more than 140 photos) and updated companion to Smarter Backpacking by the same author. It distils the complexity of wilderness travel into its simplest core concepts, allowing the reader to enjoy the freedom of backpacking rather than be encumbered by it. It is a book for day-hikers and thru-hikers, newbies and experienced backpackers or travellers alike. Everyone benefits from a lighter pack.Said about Smarter Backpacking:Jorgen Johansson has a no-nonsense, non-preachy approach, based on his 40 years of wilderness ramblings, designed to help average backpackers shave weight, not comfort or safety, from their loads. -Kristin Hostetter, gear editor Backpacker Magazine Some authors have a guru approach that's too specific to their personal hiking style, while others fail in offering practical advice because they're too generic and theoretical. Smarter Backpacking achieves a happy-medium: Jorgen Johansson shares his personal preferences and opinions, but he knows that backpacking is not a "one size fits all-activity" so he is sure to qualify his views and to recognize the views of others.-Andrew Skurka, renowned long-distance adventurer and a National Geographic "Adventurer of the Year" and Backpacker "Person of the Year" There have been several books on lightweight and ultra light backpacking since Jardines. One of the most interesting is Jrgen Johanssons Smarter Backpacking, which is about applying lightweight and ultra light techniques. Jrgen is from Sweden , and his approach shows that lightweight backpacking can work in wet or cold northern climes.-Chris Townsend, outdoor writer and long distance hiker, gear editor of TGO Magazine and author of The Backpackers HandbookJorgen Johansson distils the complexity of wilderness travel into its simplest core concepts, allowing us to enjoy the freedom of backpacking rather than be encumbered by it. His approach is not only a simpler one, but a vastly smarter one. -Ryan Jordan, Founder, BackpackingLight.comSmarter Backpacking aims to make better hikers through use of ultralight hiking techniques, rather than create more ultralight hikers. The spot-on advice is presented in an easy-reading conversational style, rather than a lecture, like you were sitting around a campfire with Jorgen Johansson. -Glen Van Peski, Founder and Chairman, Gossamer GearKurzbeschreibungSmarter Backpacking - The Appendix - is a richly illustrated (more than 140 photos) and updated companion to Smarter Backpacking by the same author.
